PROFESSIONAL SUMMARY

Results-driven Data Analyst with 2+ years of experience in data reporting, Excel automation, and BI within large-scale projects. Proven record of reducing reporting time by 30% and improving data retrieval efficiency by 40%. Proficient in Power BI, Advanced Excel, SQL, and DAX. Built and deployed **AGB Analytics** — a live AI-powered web analytics platform — demonstrating ability to translate data expertise into real product solutions.

WORK EXPERIENCE

Data Reporting Analyst & BI Analyst

02/2020 – Present

Orascom Construction — Egypt

- Managed and tracked data across multiple construction sites with 99% accuracy, supporting senior management decisions
- Automated daily, weekly, and monthly workforce reports using Advanced Excel (Pivot Tables, VLOOKUP, Macros), reducing reporting time by 30%
- Designed Excel-based tracking systems with integrated site monitoring data, improving cross-team visibility
- Improved document retrieval efficiency by 40% through structured digital archiving systems
- Developed Power BI dashboards for project performance monitoring and KPI tracking
- Collaborated with HR, engineering, and project teams to ensure accurate and timely reporting

Data Analyst & Analytics Product Builder

2023 – Present

AGB Analytics — Independent · agbinsights.com

- Built and deployed a live AI-powered web analytics platform that auto-detects data domains and generates KPIs, charts, and pivot tables from any uploaded dataset
- Integrated AI assistant for natural-language data insights and automated pattern detection
- Delivered Power BI projects: HR Attrition Analysis, Global Superstore Sales Strategy, and Project Milestone Tracker — each with custom DAX measures and stakeholder-ready dashboards
